

# Viacheslav Mikerov

London, UK

 viacheslav-mikerov

## Personal Profile

---

I have a diverse experience in software development that, among others, includes low-level hardware programming, desktop UI, modern web UI, computer graphics, distributed scientific simulations, data-intensive systems, financial distributed systems. My eight-year academical experience allows me to apply solid math and engineering skills in my work and achieve high-quality software. I believe in team work: that greater things can be achieved when working in a closely cooperating group. My peers and superiors often highlight my outstanding performance, delivery skills and ability to learn fast. Currently, I am interested in distributed systems and big data.

## Work Experience

---

### Bloomberg LP.

Software Engineer

London, UK

Nov 2018 - Pres

- Department of real-time market data
- Distributed system design and implementation
- Project management
- C++, Typescript, Javascript, Go, MongoDB

### PPRO Ltd.

Software Engineer

Munich, Germany

Nov 2015 - Oct 2018

- Payment gateway development
- Working on merchant on-boarding platform
- C++, Typescript, Javascript, Go, SQL databases

## Education

---

### Technical University of Munich

MSc in Computational Science

Munich, Germany

Oct 2012 - Aug 2015

- Mathematical modeling and analysis
- Numerical methods
- Specialization in Computational Fluid Dynamics (CFD)

### Bauman Moscow State Technical University

MEng in Computer Science

Moscow, Russia

Sept 2011 - Aug 2014

- Computer system design and engineering
- Specialization in system reliability and development

### Bauman Moscow State Technical University

BEng in Computer Science

Moscow, Russia

Sept 2007 - Aug 2011

- Computer systems and engineering
- Specialization in Computer Graphics
